

## Berlia Utility

Smart City Solutions

Berlia Utility is an advanced solution developed to ease up networking solutions & to attain highest utility level.

BERLIA utility is a bundled HDPE multi-channel consist of multiple pathways of different colors for identification & specific sizes all bound together with an outer sheath for ease of placement.

All ducts are lined up with inner silicon lubricant for permanent lubrication to avoid friction at the time of cable insertion.

Berlia utility Duct provides complete solution for cable ducting like internet, networking, CCTV, Weighing scale (commercial for highways) telephone lines, Other installations in one parent duct , employer can use a few ducts as per the requirement & remaining could be left unused & covered with end plugs/ bitumen seal for future use.

## Berlia Utility

Sustainable Product for  
Sustainable World

### Features

- Cost effective (one duct for many utilities), reduced production cost in whole & installation cost
- Provided in coil form to prevent joints
- Copper locate wire could be installed along with ducts within sheath for tracking
- Options for anti Rodent, Anti oxidant for long life & FR (Fire Retardant) for fire proof solutions
- Sequential meter marking for ease up installation & quantity confirmation
- Option for pre installed nylon rope for drawing wire in duct manually
- Option for inner ribbed in duct Inner diameter for smooth cable insertion with minimal friction
- Available in various combinations of Duct /micro ducts/ DWC & SWC Ducts in schematics of 2/3/4/7/12/19/24 way & 3/4/6 way flat
- Different color ducts could be used for identification

### Application

HT/LT Cable

Telecom

Internet

Fiber optic

Security

Communication

### Colour

Available All colour/ shades as per  
bureau of Indian Standard, IS 9938

### Option

Fire Retardant  
(FR) (UL94)

Anti rodent

Ribbed  
Inside &  
Outside

With  
Rope
